COACHING NOTES

For Peter (every script)

- Look at the lens, not at Dani.
- First line is make-or-break. Reshoot if energy drops.
- Don't smile in the hook. Smile after the hook lands.
- Sound like a person, not a marketer. Change words if a line feels stiff. Keep meaning.
- Pace: slow on pain, faster on offer, slow again on guarantee.
- No em dashes in delivery (printed dashes are pause cues only).

For Victor (Script 3 testimonial)

- Don't memorize. Read once silently, then say it your own way.
- Pause OK. Restart OK. We cut.
- Look at Peter or at lens, your call.
- Sound like you're telling a friend at a barbecue what changed for you.
- Understatement beats hype. No oversell.

LOCKED SCRIPTS (deliver these — printed for set use)

SCRIPT TO PERFORM #1 — top-perf 01 V11 (5s spoken + body overlay) — ANCHOR

Setting: Peter at active Carlsbad job site, hard hat, finished bathroom or active site behind him.

SPOKEN (12 words, look directly at lens):

"You're not failing because of the work. The system is broken."

BODY OVERLAY (text added in post, do not speak):

"When you put real ads in front of real homeowners, the calendar fills up. Predictable jobs stop being luck. They start being Tuesday."

CTA OVERLAY:

"DM us 'SCALE'"

SCRIPT TO PERFORM #2 — top-perf 07 V1 (15s) — REFERRAL ATTACK

Setting: Peter at job site, gesture to active work behind him.

SPOKEN:

"San Diego GCs. Still relying only on referrals? Word of mouth slows you down and caps your month. We help contractors get past that."

BULLET OVERLAY (added in post): -  Leads sent directly to your phone -  Simple process from call to job -  Built to bring real remodel projects

CTA:

"Tap below to see how it works."

SCRIPT TO PERFORM #3 — top-perf 07 V8 (30s) — HYPER-LOCAL CARLSBAD

Setting: Peter walking through finished space or active site.

SPOKEN (30s, conversational pace):

"Carlsbad and North County GCs. Still relying only on referrals? I get it. Referrals are how you built the business. They're also why you can't predict next month. We work with one GC down the road. We film at his job site. We run the ads. Leads come straight to his phone."

BULLET OVERLAY: -  Hyper-local, North County homeowners only -  Real job sites, not stock photos -  90 exclusive leads in 12 weeks

CTA:

"Tap below."

SCRIPT TO PERFORM #4 — top-perf 06 V1 (15s) — ANTI-HUSTLE

Setting: Peter at site, looking at lens.

SPOKEN:

"Want a fully-booked summer? Working longer hours won't get you there. Putting your real work in front of San Diego homeowners will."

BULLET OVERLAY: -  Real homeowners, not aggregator leads -  Exclusive, yours alone, never shared -  90 leads in 12 weeks or you don't pay

CTA:

"Comment 'SCALE' below."

SCRIPT TO PERFORM #5 — top-perf 06 V10 (15s) — HYPER-LOCAL ANTI-HUSTLE**SPOKEN:**

"Carlsbad GCs. You're already working harder than the guy a mile away. He's still booked and you're not. The difference is who homeowners see first."

BULLET OVERLAY: -  Hyper-local ads -  Real Carlsbad job sites -  90 exclusive leads in 12 weeks

CTA:

"Comment 'SCALE'."

SCRIPT TO PERFORM #6 — top-perf 01 V14 (10s) — BEST WORK / SYSTEM**SPOKEN (direct empathy, slow pace):**

"You do the best work in your part of San Diego. The guy down the street with worse craftsmanship is making twice as much. He has a system. You don't."

CTA:

"DM us 'SCALE'."

SCRIPT TO PERFORM #7 — VICTOR TESTIMONIAL (Script 3)

Setting: Victor at his Carlsbad site. Active site or just-finished work behind him. Tools, materials visible.

VICTOR'S LINES:

"Before I started with ScaleSD, I was slow. I had good reviews, good work. Just not enough calls coming in. These guys put together the ads, handled everything, and within a few weeks my phone started moving again."

"Now I don't stress about where the next job's coming from."

PETER'S CLOSING TAG (cut in after Victor):

"That's Victor. General contractor, San Diego. This is what it looks like when the phone works. If you want the same thing for your business, link's below."

Coaching: don't memorize. Read twice, then say it your own way. We cut in post.

HOOK BANK (quickfire — Peter delivers each against clean BG)

For the hook-bank block. Body identical, swap hook in edit.

- "If you're a contractor in San Diego and you want more jobs, keep watching."
 - "Most contractors are buying leads that 4 other guys already called. Here's how to fix that."
 - "I'm gonna show you how contractors in San Diego are booking 90 jobs in 12 weeks."
 - "Your phone should be ringing every single day. If it's not, this is why."
 - "Slow season doesn't exist for the contractors using this."
 - "Pool contractors, HVAC, roofers, GCs in San Diego, this is for you."
 - "Here's why your competitor's phone is ringing and yours isn't."
-

IF TIME ALLOWS — ORIGINAL SCRIPTS

Script 1 — Core Ad (60s)

[Hook] "If you're a contractor in San Diego and you want more jobs, keep watching." **[Problem]** "Most contractors I talk to have the same problem. They're either relying on word of mouth, or they're buying leads from some aggregator where the same lead went to 4 other guys before it got to them. So by the time you call, the customer already booked someone else." **[Credibility]** "I'm standing on a job site right now in Carlsbad. This contractor is one of our clients. In the last 12 weeks, we got him 90 qualified leads. Exclusive. Nobody else touched them." **[Offer]** "Here's what we do at ScaleSD. We run your ads, we film your content, we edit it, we manage everything. You don't touch any of it. You just close the jobs." **[Guarantee]** "And we guarantee 90 qualified leads in 12 weeks. If we don't hit it, you don't pay." **[CTA]** "If you're a contractor in San Diego, roofing, HVAC, pools, general contracting, tap the link below. Fill out a quick form and we'll reach out within the day."

Script 4 — Fast Punchy (15-30s)

"Contractors in San Diego, here's the deal. We get you 90 exclusive leads in 12 weeks. We film the ads, we run the ads, we manage everything. You close the jobs. Guaranteed or you don't pay. Link below if you want in."

STRATEGIC CONTEXT (the why behind today)

Spark Marketing intel (from Manus v2 deep-dive on 2026-05-05):

- Cesar runs ~68 active ads. 100% video. 100% English.
- His longest-runner (140+ days) is the "broken system, not your work" angle. Outdoor, walking-and-talking. We're shooting our line-level mirror as anchor (V11).
- His winning format: 5-30s talking head + bullet text overlay. Speak ~12 words, overlay 30+. We're matching this.
- His funnel: comment-keyword + DM. Lower friction than landing page on small budgets.
- His guarantee text in thumbnails: "\$500k/year contractors, 90 leads guaranteed." Tier-targeted.
- **Gap he's not filling:** Spanish, hyper-local SD/Carlsbad, on-actual-job-site authenticity. We win all three.

Our wedge:

1. We shoot on actual job sites. He shoots in offices/cars. Job-site visual = instant credibility he can't replicate.
2. We're hyper-local. He's national-generic. "Carlsbad GCs" beats "contractors in California."
3. We have the differentiated guarantee: "90 EXCLUSIVE leads in 12 weeks. Yours alone, never shared." His doesn't say exclusive.

Today's shoot is the first \$0-cost step toward all three.
