

Stopping Revenue Leakage for Contractors.

Company Overview

Your business likely loses **40–60% of potential revenue** to missed calls and delayed follow-ups. For high-ticket contractors, growth depends on a partner who prioritizes your close rate, not just your clicks. **Scale SD** acts as your revenue partner, bridging the gap between marketing spend and signed contracts by ensuring no high-value inquiry goes unanswered.

We fix the "leaky bucket" in your sales process first, then scale your reach with precision-targeted ads once your infrastructure is bulletproof. You work directly with a dedicated four-person team led by Daniel (Strategy) and Ashen (Systems) to ensure your business isn't just another pitch deck, but a high-performance machine built to close.

THE REVENUE RESTORATION MATH

- **The Leak:** 3 missed calls/week on a \$5,000 average job = **\$60,000/mo in lost revenue.**
- **The Fix:** A \$2,000 monthly system that captures and books those leads automatically.
- **The Result:** A 3,000% ROI on recovered revenue alone, before spending a dollar on new ads.

Service Categories

- Lead Automation & Speed-to-Lead (Primary)
- Contractor-Specific Paid Ads (Primary)
- CRM Systems & Pipeline Management (Secondary)
- Local SEO & Digital Infrastructure (Secondary)

WHO WE ARE NOT FOR

- Your capital is protected through strict disqualification. We turn down business if the foundation isn't right:
- **Response Lags:** You want ads running before your team can consistently answer the phone.
 - **Outside the Trades:** You are in e-commerce, restaurants, or retail; we only serve home services.
 - **The "Quick Fix" Mentality:** You've burned through multiple agencies and want a "test" rather than a system.

Core Services

Service	Impact on Your Business
"Speed-to-Lead" Automation	Your business responds to missed calls in under 60 seconds . Your pipeline books appointments and requests reviews automatically while you are on a job site.

Service	Impact on Your Business
Paid Lead Generation	Meta and TikTok campaigns built on homeowner psychology and competitor analysis, ensuring you attract qualified leads instead of generic clicks.
CRM & Pipeline Setup	Gain transparent reporting and live visibility into every lead from first touch to signed contract—replacing vague monthly PDFs with real-time data.
Foundation Package	A permanent digital asset: Website, Google Business Profile, brand identity, and local SEO infrastructure that you own entirely.

What Makes Us Different

Engineering-Grade Precision

Our systems are built with technical precision to ensure they never break when your lead volume spikes. No creative fluff; just bulletproof infrastructure.

Automation Before Advertising

We fix your response time first. This ensures every dollar of your **ad spend**

has a mathematical chance to convert into a job rather than being wasted on missed calls.

Live Pipeline, Not Monthly PDFs

You shouldn't wait 30 days to see if your marketing worked. Our live dashboard lets you hold your sales team—and us—accountable in real-time.

Measurable Results & Partners

EMSR (Restoration): \$2,500/mo retainer. Lowering **cost per lead (CPL)** through a Meta/TikTok "Social Cascade" to capture emergency leads in real-time.

California Doors & Windows: \$2,000/mo retainer. Full social management and local lead attribution for a 35-year family business.

Tony (Pool Contractor): Direct scaling of **qualified leads** and job booking through organic and paid efforts.

Verified Industry Partners: Star Builders Inc | Designer Window Supply | Gutierrez GC | United Design Group | World Pools Inc | SC Floors

The 60-Second Rule & The Hard Line

- 1 Instant Capture:** A missed call triggers an automated text-back in **under 60 seconds**.
- 2 Persistent Follow-Up:** Customized follow-ups at 24 and 72 hours ensure no opportunity is forgotten.
- 3 Automatic Booking:** Qualified leads flow directly into your calendar, filling jobs while you work.

THE HARD LINE: *We will not accept ad spend management for any business with a lead response time over five minutes. Doing so would compromise your **ROAS**. We prioritize your profit over our growth; we fix the leak before we open the tap.*
