JavaScript Code for the HighLevel Favicon:

```
<script>
var faviconURL = 'INSERT YOUR FAVICON URL HERE' // Upload an image into a location
funnel and then use the URL here.
var link = document.querySelector("link[rel*='icon']") || document.createElement('link');
link.type = 'image/x-icon';
link.rel = 'shortcut icon';
link.href = faviconURL
document.getElementsByTagName('head')[0].appendChild(link);
</script>
```

Instructions:

1. Copy the full code above starting from <script> and ending in </script>
2. Paste it in your HighLevel (Agency Account > Settings > Company > Custom Javascript field)
3. Insert your favicon image URL (get from your Media) below where it says 'INSERT IMAGE LINK HERE' (keep the single quotes ' ')
 - a. Image link example:
<https://storage.googleapis.com/msgsndr/8i411zmmIVWedTzEo8I5/media/64fb3b63ad7ac06626b33770.png>
 - b. Test the link by opening it in a new browser tab
4. Click the blue Update Company button and refresh your page
