

Social Media Strategy for Getting Sales

How do we get the contractors to want to work with us?

Focus on the results.

CONCEPTS ONLY - 100 IDEAS

- Your calendar with word of mouth - Your calendar using meta ads.
- Are you struggling to get consistent jobs in your business? Here's why
- Your business could be 10x bigger if you focused on this one thing
- Top 3 signs that your contracting business is about to hit a slow season
- Your competitors social media: Show good one. Your social media: Your competitors calendar: Your calendar: See the pattern?

Calendar Control - Have control over your business's growth

1. Your calendar with word of mouth vs your calendar with meta ads
2. Top 3 signs that your contracting business is about to hit a slow season
3. Why your jobs go up and down throughout the year
4. Having a full calendar today doesn't mean you'll have one in 3 months.
5. 3 signs you don't have control over your business's future.
6. Using referrals to fuel your business is not a strategy, it's a recipe for disaster.
7. "We don't need marketing..." Yet. Every business needs marketing. You just don't know it yet. Don't wait until its too late to start.
8. How to get jobs booked year round as a contractor.
9. Why your income as a contractor is so unpredictable and how to fix it.
10. Why the busiest contractors still go broke.

Competitor Comparison - What they're doing that you're not

1. Your phone: Your competitors phone: Your calendar: Your competitor's: Why? They built a system to get them sales every day, and you rely on referrals and word of mouth. Let's change that together.
2. Most contractors: "I don't need social media". Their competitors who use social media: SHOW INSANE GROWTH.

3. A lot of the times, the contractors we work with are so busy focusing on their jobs, that they forget to look at what the competitors are doing to get ahead. When contractors fail to plan ahead, the competitors take all their business and they end up stuck. The only way to fix this is to start building a system that lasts.
4. Do you ever wonder why your competitor's social media looks like this, and yours looks like this? Which one do you think a customer is going to pick?
5. Your competitors are spending 1000 dollars and making 100K. You are spending 0\$ on referrals and making unsteady income because there is no control.
6. If a customer googles contractor for roofing in San Diego, or pool remodels, here's who shows up.

Customer POV - How clients choose a contractor online

1. If a customer is choosing a contractor for their project online, are they going to pick this website, or this website. Are they going to pick this contractor, or this contractor. You could be losing hundreds of thousands of dollars in jobs because you don't look professional online.
2. POV: I'm a customer choosing a contractor. Show website 1 (Instant skip). Show website 2. Call them immediately.
3. POV: I'm a customer picking a contractor for a project. Social media 1. Social media 2. This is why your calendar goes up and down so much, customers are picking people who they can trust online, and you haven't proven that yet.

Social Proof/Results - Real numbers from real clients

1. With advertising on social media, we get contractors clients every day by getting real customers information.

Reviews and SEO - How to get found and trusted online

1. In San Diego there are thousands of people online right now looking for a contractor for their project. Will they even be able to find you?
2. "I don't need a good website". Then you wonder why you don't get consistent jobs. There are thousands of people looking at your business on google. If they aren't calling you, they don't like what they see.
3. You could be the best contractor in the city, but no one would know, because you don't have a good social media presence.

Why Your Content Isn't Working - DIY isn't good enough

1. If a customer with no experience said they wanted to do a major remodel or a big project on their own, and they didn't need a professional, you would think they were crazy. So when it comes to building your social media, what makes you think you can do it yourself?
2. "Social media doesn't work". Or you just don't know how to do it.
3. Most contractors make videos like this and then wonder why they aren't getting business from social media. Because they don't know what the customers want to see. But we do.
4. Customers see this video and think "this is a guy walking through a house". Customers see this video and think "Where do I sign?"
5. 3 reasons why you're probably losing money on meta advertising. 1. You are using videos that don't catch customers attention. 2. You don't build trust with your customers online. 3. You have someone running your social media who isn't revenue focused.

Ads Education - What are they and how do they make me money

Business Growth Mindset - Think like a business owner not a tradesman

1. Contractor 100K/year: I have word of mouth, I don't need marketing.
 1M+/year: I have a market system that gets me new jobs every day.
 50K/year: I'm busy right now, so I don't need to change anything. 1M/year:
 Just because I'm busy today, doesn't mean I'm ready for tomorrow.
 50K/year: Asking for business. 1M/year: I am too busy for this. Time to hire more people and build my business.
2. This contractor works 80 hours a week and makes this much. This contractor works 40 hours a week and makes this much. The difference? The system they have for getting clients.
